

You do not meet the criteria for testing at this site at this time, or this site has reached capacity for the day.

If you are experiencing COVID-19 symptoms or may have been exposed, contact your state or local health department for additional testing sites.

Continue to take steps to protect yourself

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, clean your hands with an alcohol-based hand sanitizer that contains at least 60% alcohol, covering all surfaces of your hands and rubbing them together until they feel dry.
- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Clean all “high-touch” surfaces every day. High touch surfaces include counters, tabletops, doorknobs, bathroom fixtures, toilets, phones, keyboards, tablets, and bedside tables.

Continue to take steps to protect others

- Stay home if you're sick.
- Cover coughs and sneezes.
- If available, wear a facemask if you are sick.

Monitor any symptoms:

- Note the day your symptoms begin.
- Check your temperature two times a day.
- Keep a daily record of fever, cough, and additional respiratory symptoms.
- Seek further evaluation from a healthcare provider via telemedicine or in-person if your symptoms get worse.

Call ahead before visiting your doctor.

Seek medical attention immediately if you develop any of the following emergency warning signs for COVID-19 or other medical emergencies:

- Extremely difficult breathing
- Bluish lips or face
- Constant pain or pressure in the chest
- Severe constant dizziness or lightheadedness
- Acting confused
- Difficult to wake up
- Slurred speech (new or worsening)
- New seizure or seizures that won't stop

This list is not all-inclusive. Please consult your medical provider for any other symptoms that are severe or concerning.

For medical emergencies, **call 911** & notify the dispatch personnel that you may have COVID-19.
